Directions:

1. Select courses for the entire school year, and be sure to consider your selections carefully. Check your Registration Guide for graduation requirements, course information, prerequisites, and credit for each course you request. The required courses are listed in the table below, and you must select one course for each area: English, Social Studies, Math, and Science. If a math course you wish to select is not listed below, cross out one of the choices and write in your selection instead. These courses will count for 4.0 credits.
2. Request teacher approval / signature to verify correct level placement in all core classes and elective courses with prerequisites. Note: AP course requests require a separate Application/Teacher Recommendation Form for each class.
3. Courses highlighted in grey are intended for students with unique educational needs (e.g., IEP, 504 plan, LAP, ELL). Consult the case manager or teacher who coordinates the student's services, as his/her signature is required.
4. Select elective courses to complete your schedule. Be sure to fill in the Course Number, Course Name, and Credits boxes for each course. **You must take 6.0 credits for your sophomore year.** If you are taking a music course, your schedule may consist of 7.0 credits which is subject to change due to budget constraints.
5. Select alternative elective courses in case your prior elective selections cannot be filled. **List your alternative electives in priority order, with the course on top having greatest priority.**

Note: Depending on your previous assessment scores or an existing educational plan, you may be placed in an English, math, or science class you have not selected below. You may also be placed in a Reading or Math support class in lieu of an elective.
