

# MRHS Academic Support Options

Mountain Range offers many opportunities for students to find the help they need to achieve academic success in high school. While each of your child's classroom teachers can offer individual suggestions for content-specific support, below you'll find the regular, school-wide options available to all students.

	<p><b>Tuesdays 7:10 - 7:50</b> <b>Wednesdays 11:45 - 12:30</b></p> <p>Teacher locations during academic support are posted throughout the building, in the library, and on each teacher's website.</p>	<p>Academic Support periods are twice-weekly blocks of time where students can meet with teachers to get one-on-one, personalized help. Academic Support is the perfect time to clarify concepts, review practice work, catch up after absences, retake assessments, or settle in to study and do homework.</p> <p>Though we don't take attendance during Academic Support periods, as it is run on a drop-in format, Academic Support periods are <b>part of the regularly scheduled school day, and should be a routine part of your student's week.</b></p>
	<p><b>Mondays, Thursdays, and Fridays</b> <b>Periods 4, 5, and 6</b></p> <p>Corral Room</p>	<p>Study Hall is in the Corral Room every lunch period on singleton days, and is staffed by a teacher who is there to help with study skills, organization, or general homework questions.</p> <p>The Corral Room also has large tables and white boards; a perfect space for working on group projects. Food is allowed in Study Hall, so this is a good choice for a quiet working lunch.</p>
	<p><b>Mondays, Tuesdays, Thursdays, Fridays from 6:45 - 3:30</b> <b>Wednesdays from 6:45 - 12:30</b></p>	<p>Our award-winning library is staffed by our Media Tech, Tracy Brown, and our Teacher-Librarian, Tricia LaRue. The library offers current magazines and newspapers, bestselling books, computers, printers, and the expert technological knowledge of Ms. LaRue. If it's a resource your child needs, the library either has it, or can help your child get it.</p>
